

CJD EQUIPMENT & KENWORTH

CJD Equipment were appointed Kenworth dealers in 1984 and since that time have shared many developments such as the re-design of the K100 8x4, the introduction of tri-drive Kenworths to the WA market and the introduction of the massive off road C510.

The opening of branches in Kalgoorlie and more recently in Bunbury has further displayed CJD Equipment and Kenworth Trucks commitment to our WA customers.

During 2004 we celebrated our 20th year as Kenworth dealers and also delivered our 1,000th new Kenworth truck.

PACCAR AUSTRALIA has selected CJD Equipment to market their entire range of trucks into the WA market and that process has seen a gradual and systematic introduction of DAF in this state.

Customer acceptance of DAF trucks is proving exceptional and similar growth in market share is planned in line with other areas of Australia.

2005 will see the opening of our new state of the art truck dealership in Forreestfield on the corner of Abernethy Road and Dubs Close.

This new facility will be the most modern, efficient truck sales and service facility in Western Australia with full drive through servicing facility for "B" doubles and road trains.
