# ECR35D, ECR40D

Volvo Compact Excavators 3.5-3.9 t 31 hp

# A passion for performance

At Volvo Construction Equipment, we're not just coming along for the ride. Developing products and services that raise productivity – we are confident we can lower costs and increase profits for industry experts. Part of the Volvo Group, we are passionate about innovative solutions to help you work smarter – not harder.

## Helping you to do more.

Doing more with less is a trademark of Volvo Construction Equipment. High productivity has long been married to low energy consumption, ease of use and durability. When it comes to lowering life-cycle costs, Volvo is in a class of its own.

## Designed to fit your needs.

There is a lot riding on creating solutions that are suited to the particular needs of different industry applications. Innovation often involves high technology – but it doesn't always have to. Some of our best ideas have been simple, based on a clear and deep understanding of our customers' working lives.

## You learn a lot in 180 years.

Over the years, Volvo has advanced solutions that have revolutionized the use of construction equipment. No other name speaks Safety louder than Volvo. Protecting operators, those around them and minimizing our environmental impact are traditional values that continue to shape our product design philosophy.

## We're on your side.

We back the Volvo brand with the best people. Volvo is truly a global enterprise, one that is on standby to support customers quickly and efficiently – wherever they are.

## We have a passion for performance.

# Short swing, big power

The ECR35D/ECR40D short swing radius machine is designed to work with power and precision in tight spaces, improving safety and performance in all applications. Featuring a comfortable cab, excellent hydraulics, easy-to-use controls and outstanding serviceability, you will achieve a lot with this small machine.

## Optimized efficiency

For lower costs, increased productivity and maximum uptime a number of efficient features combine on the ECR35D/ECR40D. ECO mode allows you to choose the right machine setting for the job at hand for impressive fuel efficiency. Robust design and quality digging equipment delivers durability and long term machine value. Auto idle and auto engine shut down reduce noise disturbance, fuel consumption, maintenance costs and slow down depreciation of your machine.

## Easy to use

The machine's state-of-the-art hydraulic system is perfectly matched to the Volvo engine delivering high performance, fast response times and smooth operation. The ergonomic, comfortable controls are easy to understand and make it simple to switch between operators. Responsive fingertip controls enhance ease of operation, reduce fatigue and improve fluency.

## Superior serviceability

The ECR35D/ECR40D is built to ensure servicing is safe, quick and easy, featuring easy service access with wide-opening hoods, centralized lubrication and ground-level greasing points. The patented multifunction transparent hydraulic filter and extended greasing intervals of 50 hours, enhance machine availability and uptime.

## Short swing radius

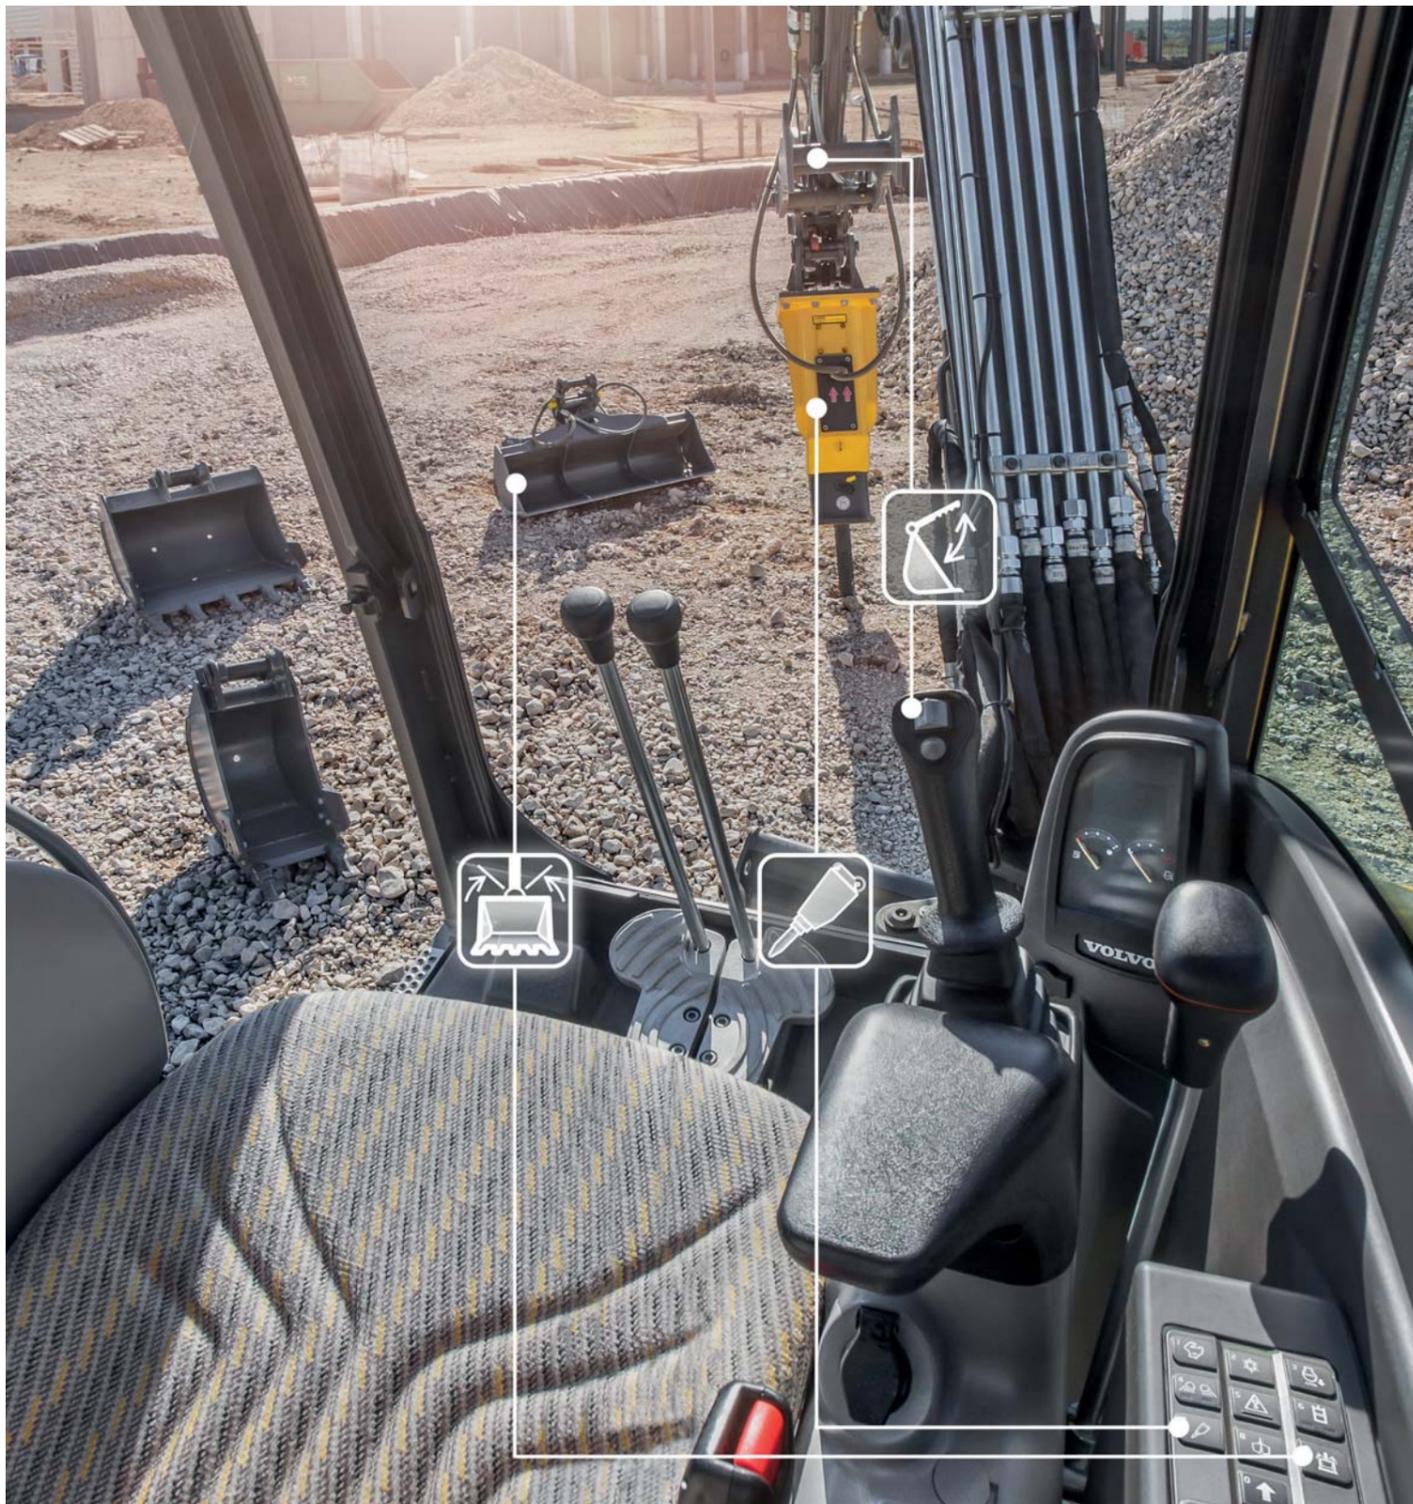

This compact excavator is designed and built to work in tight spaces and can be used on more jobsites while reducing risk of damage to the machine and its surroundings. Short swing radius design and boom cylinder position on the left make the ECR35D/ECR40D the number one choice for working in confined areas. Slew and offset movements are controlled simultaneously for easy and fast positioning of the machine.

# OPERATOR ENVIRONMENT

Operate in a best-in-class cab for superior operator comfort and less fatigue. The ECR35D/ECR40D is equipped with a spacious operator environment offering excellent all-around visibility and an adjustable suspended seat and console. Most machine functions and settings can be quickly accessed through keypad and monitor for maximum control of your machine.

# More than a machine

Tailored to your business and operations, choose from a wide range of Volvo attachments and Customer Solutions to improve your performance, productivity and versatility. Volvo offers a complete range of robust attachments for all working conditions and can offer a long-term partnership, protect your revenue and provide a full range of services using Genuine Volvo parts, delivered by passionate people.

## Quick Couplers

The mechanical and hydraulic universal quick couplers allow attachments to be changed quickly and efficiently. The hydraulic quick coupler's design allows it to be used for matched Volvo attachments as well as a broad range of offerings from different brands.

## Advanced attachment solutions

The machine is compatible with a range of hydraulic attachments, including thumb, breaker and tilttable ditching bucket for more advanced and specialist applications. Available from the factory or aftermarket, do not hesitate to contact your local Volvo dealer and benefit from leading expertise and advanced attachment solutions.

## Dealer support

For less downtime and expert care, Volvo proactively respond to your requirements faster and fully support your service and maintenance needs through its local workshops and on-site service vans. Your attentive Volvo dealer offers professional expertise and preventative maintenance solutions to keep you working and ensure more uptime.

## Genuine Volvo Parts

Our attention to detail is what makes us stand out and our leading parts availability ensures maximum uptime of your machine. For a long life, parts are extensively tested and approved because every part is vital for machine longevity and uptime.

# BUILT READY

Get the most out of your machine. The ECR35D/ECR40D is a perfect match with Volvo attachments allowing you to change hydraulic settings directly and easily from the keypad. For increased versatility and uptime, Volvo has a durable range of attachments so you can access more applications and effectively perform a variety of jobs.

# Short swing, big power

## Anti-theft system

To reduce the risk of theft, a code can be entered through the keypad to start the machine. It can be changed via the machine management system.

## Automatic engine shutdown

This function automatically turns the engine off to reduce fuel consumption and cut engine operating hours when the machine is inactive for a pre-set amount of time.

## Short swing radius

Short front and rear radius ensures safe and easy operation within a confined space.

## BUILT READY

Volvo's durable attachments have been purpose-built to deliver maximum productivity and long service life in combination with Volvo machines

## In-track boom swing

The swing post and cylinder stay within the tracks when in an offset position, avoiding the risk of damage to your machine when working alongside obstacles.

## 50 hour greasing interval

The greasing interval is 50 hours – therefore there is no need to re-grease between jobs.

## Automatic travel speed

Automatic two speed travel allows the operator to continually drive the machine at high speed. Speed is automatically reduced when traction is needed.

## OPERATOR ENVIRONMENT

The industry-leading, spacious Volvo FOPS1 on top, TOPS and ROPS cab boasts all around visibility, ergonomically positioned controls and excellent vibration and noise insulation.

## ECO mode

By simply pressing a button, the unique Volvo ECO mode reduces fuel consumption by up to 10%.

## Suspended seat and console

The multi-adjustable seat and console are mounted on the same suspension and therefore move together – providing excellent shock and vibration absorption.

## Service access

The side position of the engine together with two, wide-opening hoods ensures safe and easy access to all components and service check points from ground level.

## Patented hydraulic filter

Filtration occurs when the tank is filled or topped up and before the oil returns via the drain lines. The transparent bowl enables easy oil level and contamination checks.

## Customer Solutions

Volvo provides the right solutions throughout the entire life cycle of your machine to lower total cost of ownership.

# Volvo ECR35D, ECR40D in detail

# Specifications

## LIFTING CAPACITY ECR35D

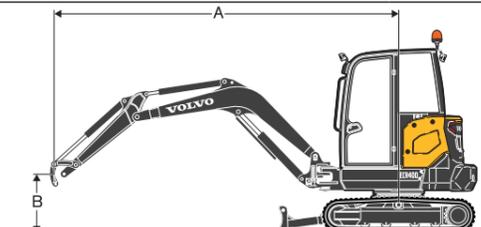

These capacities are given for a machine equipped with a cabin, 300mm rubber tracks and without a bucket or quick-coupler. The below values are in compliance with ISO standard 10567. They do not exceed 75% of the tipping load or 87% of the hydraulic limit with the machine on firm level ground. Loads marked with an asterisk (\*) are limited by machine's hydraulic lifting capacity rather than tipping load. Caution: In accordance with standard EN 474-5, the machine must be equipped to carry out handling operations. It is the operator's obligation to know and follow the applicable national and local safety regulations.

	Lifting point height (B) m	Lifting point radius (A)								Max. m
		2.0 m		3.0 m		4.0 m		Max. reach

# Equipment

## STANDARD EQUIPMENT

	ECR35D	ECR40D
<b>Engine</b>		
Low emission, direct injection, water-cooled, Volvo EU Stage IIIA 3-cylinder diesel engine.	•	•
Engine restart prevention system. Starter motor is protected against ignition when engine is already running.	•	•
Dry-type single element air filter.	•	•
Plastic fuel tank with drain plug.	•	•
Protective strainer on the fuel suction pipe inside the tank	•	•
Water separator.	•	•
Translucent fuel filter.	•	•
<b>Electric/Electronic control system</b>		
Maintenance free battery.	•	•
IP67 protected electrical system and high quality connectors.	•	•
Removable battery cut-off switch.	•	•
In-cab 12V power socket.	•	•
<b>Drivetrain</b>		
Axial piston hydraulic motors equipped with an epicyclic reduction gears.	•	•
Automatic two speed travel	•	•
Bottom flanged rollers lubricated for life...	•	•
Grease tensioning wheel lubricated for life.	•	•
<b>Swing system</b>		
Radial piston hydraulic motor with direct engagement on the ball internal crown wheel (no reduction gears).	•	•
Integrated shockless valve.	•	•
Automatic multi-disc slew brake.	•	•
Centralized and remote lubrication of crown wheel & ball bearing.	•	•
<b>Undercarriage</b>		
*X* shape, box welded fabricated frame with sloping side members.	•	•
2 Tie-down points on the dozer blade.	•	•
2 Tie-down points on the frame.	•	•
2 Integrated lifting points.	•	•
Sturdy removable protecting covers for track motors and slew system.	•	•
400HB weld-on edge on dozer blade	•	•
<b>Hydraulic system</b>		
Large hinged and key-locked access panel.	•	•
Variable displacement, load-sensing piston pump.	•	•
Closed centre flow-sharing main control valve.	•	•
Cushoning on cylinders:	•	•
- Boom up	•	•
- Arm out	•	•
Patented filtering and filling element.	•	•
Single layer cooling system.	•	•
Double-acting hydraulic circuit for accessories.	•	•
Hammer / shear valve.	•	•
Plastic tank with drain plug.	•	•
<b>Digging Equipment</b>		
Monobloc box welded boom.	•	•
Boom cylinder rod protection.	•	•
Integrated lifting point on the boom.	•	•
Monobloc box welded arm.	•	•
Long-life steel bushings.	•	•
Hardened, pre-lubricated and corrosion resistant pins.	•	•
50 hours greasing intervals.	•	•
<b>Cab</b>		
FOPS on top level 1 (Falling Object Protective Structure).	•	•
TOPS (Tip-Over Protective Structure).	•	•
ROPS (Roll-Over Protective Structure).	•	•
Cushioned operator station.	•	•
Large door access.	•	•
Large and roomy uncluttered floor.	•	•
Gas-strut assisted front window opening.	•	•
Full opening front bay with in-cab storage for the front lower window.	•	•
Front windscreen wiper and washer nozzle.	•	•
Right hand side sliding window.	•	•
Heating systems.	•	•
Multiple adjustable air vents.	•	•
Filtered air inlet.	•	•
Cab inside light.	•	•
Seat-belt with warning indicator.	•	•
Right rear-view mirror.	•	•
Two working lights on top front of the cab.	•	•
<b>Canopy</b>		
FOPS level 1 on top (Falling Objects Protective Structure)	•	•
TOPS (Tip-Over Protective Structure)	•	•
ROPS (Roll-Over Protective Structure)	•	•
Cushioned operator station	•	•
Large and roomy uncluttered floor	•	•
Left hand-rail access	•	•
Seat-belt with warning indicator	•	•
Right rear-view mirror	•	•

## STANDARD EQUIPMENT

	ECR35D	ECR40D
<b>Machine controls</b>		
Finger tip control for boom offset.	•	•
Finger tip control for auxiliary circuit.	•	•
Breaker toggle switch on right joystick	•	•
Automatic locking device for pilot controls and travel levers when the left console is raised.	•	•
Engine starting safety device: the left console must be raised to operate the starter.	•	•
Pressure accumulator to lower the equipment on the ground when the engine is switched off.	•	•
High torque / automatic two speed change over button on the keypad.	•	•
High speed toggle switch on the dozer blade lever.	•	•
Large travel pedals.	•	•
<b>Instrumentation and monitoring</b>		
Water temperature and fuel level gauges.	•	•
Warning lights for hydraulic filter and air filter restriction.	•	•
Self-acting emergency engine shutdown. Prevents failures in case of coolant overheating or too low engine oil pressure.	•	•
Several warning lights, coupled to an audible signal, in the event of malfunction (overheating, drop in oil pressure, low battery voltage...)	•	•
<b>Official approval</b>		
Machine conforming to European directive 2006/42/EC.	•	•
Noise emissions in the environment conforming to directive 2000/14/EC.	•	•
Hand Arm Vibrations - Whole Body Vibrations compliant with directive 2002/44/EC.	•	•
Electromagnetic compatibility (EMC) conforming to European directive 2004/108/EC and its amendments.	•	•
Object handling device conforming to EN 474-1 and EN 474-5 standards.	•	•
FOPS on top level 1 conforming to ISO 10262 standard.	•	•
TOPS conforming to ISO 12117 and EN 13531 standards.	•	•
ROPS conforming to ISO 3471-1 and / SAE J1040 standards.	•	•

Extra pin kit	○	○	○	○
Lehnhoff® Quick Coupler Mechanical (MS03)	○	○	○	○
S-type hydraulic quick coupler (S40)	○	○	○	○
Thumb with short clamp (for direct fit bucket)	○	○	○	○
Thumb with long clamp (when using quick coupler)	○	○	○	○
General purpose buckets (300mm / 52L up to 750mm / 148L)	○	○	○	○
Bolt-on side cutters	○	○	○	○
Fix ditching buckets (1300mm / 150L)	○	○	○	○
Tilttable ditching buckets (1200mm / 125L)	○	○	○	○
Hydraulic breaker HB03LN	○	○	○	○

## SELECTION OF VOLVO OPTIONAL EQUIPMENT

### Anti theft

### Auto engine shutdown

### OPG

### Air conditioning

### Angle blade

### Safety valves

Not all products are available in all markets. Under our policy of continuous improvement, we reserve the right to change specifications and design without prior notice. The illustrations do not necessarily show the standard version of the machine.

# BIG ENOUGH TO TRUST SMALL ENOUGH TO CARE

## Founded in 1974...

CJD Equipment are in the industry for the long term and have the skills and knowledge to support you and your equipment. CJD Equipment takes great pride in being Volvo CE's first and only authorised partner in Australia for three decades. Together, we provide a full range of machinery ideally suited to Australia's unique landscapes and industry requirements. These products are fully supported through a nationwide network of branches, and carefully selected dealers and service agents, strategically positioned to ensure total support.

With fully equipped parts warehouses in every capital city, and dealers throughout major regional towns, we have the support network in place to ensure you're well supported, no matter where you or your machines are. Ongoing in-house training programs ensures our technicians' skills keep pace with the latest technology and product advances.

Visit [www.cjd.com.au](http://www.cjd.com.au) to read more about our history, range of products and to locate your local branch or dealer.

Head Office  
54 Great Eastern Highway  
South Guildford, WA 6055
